

CARBON NEUTRAL STEEL PRODUCTS

OPTIGREEN

Operational carbon neutral product

Offsetting scope 1 emissions and purchasing
RECs for scope 2

OPTIZERO

Carbon neutral product

OPTIGREEN benefits + Offsetting scope 3
emissions

PROJECT CRITERIA AND ALIGNMENT

We consider:

State/Country Alignment

U.S.-based projects located in Illinois, Maryland, Connecticut and Ohio.

Project Type Alignment

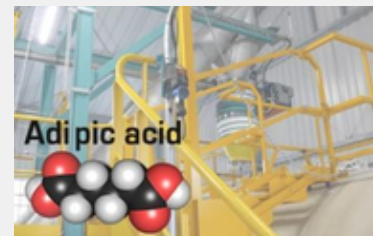

Landfill Gas
Capture/Combustion

Industrial Process Emissions

Adipic Acid

Potential Alignment with UN SDGs

Prioritized alignment with the United Nation's Sustainable Development Goals #4, 6, 7, 9 and 11

Third Party Ratings & Certifications Alignment

Either achieved at least a B score from a third-party rating agency or a CCP label

WHAT THIS MEANS FOR YOU

Engaging this way can support your own corporate sustainability measures

Offset your scope 3
emissions with a carbon
neutral steel product

Direct benefit for product
marketing: the steel you
employ is either carbon
neutral or operational
carbon neutral

Carbon Neutral

refers to items produced in a way that their total greenhouse gas (GHG) emissions are balanced out by equivalent carbon removal or offsetting measures, resulting in a 'zeroed' carbon footprint over the product's lifecycle.
